

ScriptableObject

```
classDiagram
    class ScriptableObject {
    }
    class SO_Resource {
        + ResourceType ResourceTypes
        + float ObtainingTime
        + int ObtainedAmount
        + int MaxAmount
        + int IncreaseMaxAmount
        + Sprite Icon
        + bool ProducesOnlyOneTime
    }
    ScriptableObject <|-- SO_Resource
```

The diagram shows a class hierarchy. At the top is a box for 'ScriptableObject' with two empty compartments below the name. Below it is a box for 'SO_Resource' with a list of attributes. A blue arrow with an open triangle head points from 'SO_Resource' to 'ScriptableObject', indicating inheritance.

SO_Resource

- + ResourceType ResourceTypes
- + float ObtainingTime
- + int ObtainedAmount
- + int MaxAmount
- + int IncreaseMaxAmount
- + Sprite Icon
- + bool ProducesOnlyOneTime
