

MonoBehaviour

```
classDiagram
    class MonoBehaviour
    class UIPauseMenu {
        Button resumeButton
        Button exitButton
        GameObject fadeGameObject
        Awake() void
        OnDestroy() void
        GoToGame() void
        GoToMainMenu() void
        FadeOut(string scene) IEnumerator
    }
    MonoBehaviour <|-- UIPauseMenu
```

The diagram illustrates a class hierarchy. At the top is the 'MonoBehaviour' class, represented by a rectangle with three horizontal compartments. The top compartment contains the class name. Below it are two empty compartments. A blue arrow with an open triangular head points upwards from the 'UIPauseMenu' class to the 'MonoBehaviour' class, indicating inheritance.

UIPauseMenu

- Button resumeButton
- Button exitButton
- GameObject fadeGameObject
- void Awake()
- void OnDestroy()
- void GoToGame()
- void GoToMainMenu()
- IEnumerator FadeOut  
(string scene)
